# Deena Khattab

**HELLO**

I'm Deena – a San Francisco-based product designer who specializes in systems thinking.

## EXPERIENCE

**Product Designer**
NerdWallet, 2018 – present

Building and managing design systems, tooling and processes for 40+ designers and 100+ engineers

**Product Designer**
Dialpad, 2016 - 2018

Worked on UX, visual, and interaction design for Dialpad's mobile app; created and evolved the company's design system

**Design Intern**
Autodesk, 2014

Designed and executed original 3D printing projects using AutoCAD software

**Content Design Intern**
NASA, 2013

Created content for NASA.gov, including the curation and publishing of a web-based digital photo archive project

## VOLUNTEER EXPERIENCE

**Mentor**
TechWomen, 2019 - present

Mentoring women from emerging countries through the State Department initiative

**Mentor**
HexagonUX, 2018 – 2019

Mentored female experience designers and design interns through one-on-one career coaching
